

OVERVIEW

New City Kids' mission is "loving kids for change to create a community of academic, leadership, musical, and spiritual development." The program has a two-tiered structure, each tier complimenting the other. First, New City Kids operate highly structured academic and performing arts focused after school centers for 220 at-risk children ages six to thirteen, five days a week. But what really makes the after school center unique is the second tier. Instead of staffing the program with paid adults or volunteers, 100+ high school students are employed. These 450-hour internships are designed to open teens' eyes to their own amazing abilities and to awaken them to the joy of leadership, the goodness of earning money, the attainability of a college education and the transforming power of God's love.
